

	AI Roles	Teachers' notes
Classroom screen	<p>It is a practical classroom management companion that helps you organize lessons clearly and visually. It can be used to:</p> <ul style="list-style-type: none">• display timers, clocks, and countdowns to structure lesson stages• show visual instructions and task steps• manage noise levels with a sound meter• create random student selectors for participation• group students automatically• display QR codes for quick access to materials• write and save notes directly on the screen• use drawing tools and text boxes to give quick explanations• create exit tickets or quick reflection prompts• add polls for instant feedback• integrate AI tools (e.g., question generators or activity prompts) to quickly create classroom tasks	<ul style="list-style-type: none">• It works directly in your browser — no installation required.• You can use the free version, but some advanced features require a paid subscription. However, a free version provides more than enough for teachers to manage the classroom already.• Boards can be saved and reused, which is helpful for recurring lesson structures.• It is especially useful for young learners or large classes where visual structure is important.
