

Tool Name	AI Roles	Teachers' notes
NotebookLM	<p>It is a personalized AI research assistant that grounds its answers entirely in the documents you upload. It can be used to:</p> <ul style="list-style-type: none">• Synthesize themes, arguments, or common errors across multiple student writing submissions.• Generate automated study guides, FAQs, and reading quizzes for literary texts.• Create highly engaging "Audio Overviews" (podcast-style summaries) of complex academic articles or expository arguments.• Organize lecture notes, syllabi, and course materials into a central, easily searchable hub.	<ul style="list-style-type: none">• Because it strictly uses the sources you provide, it drastically reduces the risk of AI hallucinations.• It does not browse the live web unless you specifically add a URL as a source.• The Audio Overview feature is excellent for flipped classrooms, though be aware the AI hosts adopt a conversational tone that might be too informal for strict academic analysis.• Always review the generated study guides to ensure they hit the specific analytical depth you require.
