

Tool Name	AI Roles	Teachers' notes
<p><b>SchoolAI</b></p>	<p>It is a specialized, student-facing AI platform designed to create safe, teacher-monitored AI interactions. It can be used to:</p> <ul style="list-style-type: none"> <li>• Build custom "Spaces" where students interact with an AI tutor trained to help scaffold the course material.</li> <li>• Create interactive role-playing scenarios (e.g., debating a literary character or historical figure).</li> <li>• Provide immediate, structured feedback on writing drafts without simply giving students the direct answers.</li> <li>• Generate warm-up activities, writing prompts.</li> <li>• Differentiate instruction by allowing students to chat with the AI at their own pace and reading level.</li> </ul>	<ul style="list-style-type: none"> <li>• Highly focused on student privacy and safety; it is built specifically for educational environments.</li> <li>• Unlike general chatbots, you have a teacher dashboard providing complete, real-time visibility into what your students are typing and how the AI is responding.</li> <li>• When setting up a Space, be highly specific in your prompt instructions (e.g., "Act as a writing coach. Ask guiding questions. Do not write the thesis statement for the student").</li> <li>• Excellent for creating support for students who need extra help outlining or brainstorming outside of class hours.</li> </ul>
