

TIRF AI Show & Tell: Elicit_Review Card_Onur Burns

Tool Name	AI Roles	Teachers' notes
Elicit	AI Literature Review Assistant designed for: • finding papers, extracting data, and synthesizing findings • Semantic search across academic articles (doesn't rely on exact keywords) • Extracts specific data points (e.g., sample sizes, dosages) into comparable tables.	• Does not analyze your own manuscript draft or verify your existing bibliography. Multiple search will yield more results since each search may yield different articles.
