

TIRF AI Show & Tell: TurboScribe_Review Card_ Dao Xuan Phuong Trang

Tool Name	AI Roles	Teachers' notes
TurboScribe	• Converting audio and video recordings into editable text. • Transcribing lectures, interviews, meetings, and classroom recordings. • Identifying speakers and adding timestamps to transcripts. • Supporting transcription in multiple languages. • Exporting transcripts in several formats for further editing or analysis.	• Free tier has limits (2 transcriptions/day). • Always review and edit transcripts before using them for research, assessment, or publication. • Technical terminology, names, and discipline-specific vocabulary may require manual correction. • The tool can save considerable time, but it does not replace careful proofreading. • Users should ensure that recordings are collected and uploaded in accordance with privacy and research ethics requirements.
